

To begin, do you think things in _____ are generally headed in the right direction, or are they off on the wrong track?

	Right Direction	Wrong Track	Don't Know
The City of Fresno	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Your neighborhood	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Do you know the name of the school district that services your area?

You live in an area served by the Central Unified School District. How much do you know about Central Unified overall? Would you say that you...?

Know a great deal

Know some

Know almost nothing

Have never heard of it

Don't know

In your opinion, what is the most important issue facing Central Unified today?

In recent years, do you think the total enrollment in Central Unified schools has been...

Going down

Staying about the same

Going up

Don't know

How much do you know about Central High School specifically? Would you say that you...?

Know a great deal

Know some

Know almost nothing

Have never heard of it

Don't know

Do you think that Central High School...?

Could be serving more students

Is serving about the right number of students

Is serving more students that it can handle

Don't know

Here is some more information about Central High School.

Central High School currently operates on two campuses: the East campus is the larger campus and that is where most classes and programs are offered. But, there is not enough space there to offer all of the classes and programs that students need. So multiple times per day, hundreds of students are shuttled by bus approximately seven miles to the West campus. Taken together, the two campuses make a comprehensive high school.

How serious of a problem do you think it is that Central High School has to shuttle some of its students between the East and the West campus on a daily basis? Would you say it is an extremely serious problem, a very serious problem, somewhat serious problem, or not too serious of a problem?

Extremely serious

Very serious

Somewhat serious

Not too serious

Don't know

Are you aware of any plans for Central Unified to build a new high school?

Yes

No

There are plans for a new comprehensive high school near Harvest Elementary School and Glacier Point Middle School. The new high school is scheduled to open in three years for the 2021-22 School Year. When the school is open, many of the students who currently attend Central High School will attend the new high school and the need to shuttle students between the Central High School campuses will be reduced or eliminated.

Do you strongly support, somewhat support, somewhat oppose, or strongly oppose building a new high school for Central Unified?

Strongly support

Somewhat support

Somewhat oppose

Strongly oppose

Don't Know

Some people have suggested that, instead of this plan, the school district should upgrade the West campus of Central High School in time for the 2019-20 school year – before the new high school is completed – so some students would attend the West campus as their main high school and others would continue to attend the East campus. When the new high school opens, the student attendance areas would be rearranged.

Other people suggest waiting until the new high school is complete, because it will be less disruptive for students. Also, the West campus requires significant upgrades and improvements to be able to offer programs and classes that are equal to the East campus and the school district does not have the resources to make those upgrades until after the new high school is built.

Having read these two options, which do you prefer?

Dividing Central School District's high school students between the East campus of Central High School and West campus in the 2019-20 school year.

Dividing Central School District's high school students between the East and West campus of Central High School and the new high school in the 2021-22 school year.

Don't know

Next, after the new high school is built, which of the following do you most favor as a use for the West campus?

Use it as a magnet high school for agriculture, engineering or another subject

Use it as a vocational/career technical campus to serve students from Central and the region

Upgrade and renovate it to serve as a third comprehensive high school

Don't know
