**FRESNO, CA** – The Executive Board of the Fresno County Republican Party strongly condemns Congressman David Valadao for voting to impeach President Trump - who has been essential to the success of the Republican Party. Congressman Valadao's vote, one of 10 Republican votes, is a slap in the face to those who worked on or donated to the congressman's recent campaign. We applaud the 197 Republican House members who chose to support our President – who accomplished much more in four years than other Presidents have in eight years.

The Democrats have no interest in healing the political divide in our country. In fact, the Democrats are purposely inflaming the divide with this constitutionally flawed and vindictive impeachment just a few days before the inauguration!

Congressman Valadao's vote has shocked his constituents. We could have expected the same vote from former Congressman T. J. Cox.
